

Presentation of Säkerhetskulturnätverket (SÄKU) - The Swedish Safety Culture Network

2026

Overview

Who are we?

Since 2014, The Swedish Safety Culture Network (Säkerhetskulturnätverket/SÄKU) has been a non-profit association promoting competence development and experience exchange for professionals in risk, occupational safety, and health

Vision

Our vision is to be Sweden's leading network for Occupational Safety & Health Culture, fostering learning through research, training, and practical applications in safety culture, risk, health and human factors.

Overview

Knowledge and Experience Sharing

SÄKU provides a platform for sharing experience, expertise and developing health & safety skills.

Bridging Research and Practice

At our events, we try to connect research insights with practical safety management and risk and health strategies.

Collaborative Safety Culture

SÄKU promotes collaboration through discussions, events, and our accessible member resources.

English version

Core Activities

Diverse Safety Events

SÄKU hosts webinars (ca 7-10 per year, most in English) and an annual conference on key health & safety topics.

Focus on the wide array of Health & Safety

Events emphasize topics like Safety Culture, Human & Organizational Performance (HOP), New Views of Safety, Psychological Safety, Safety Leadership, Behavior-Based Safety (BBS) and more.

We don't belong to any "school of thought". We want to inspire that lessons can be learned from many schools, sectors and experiences.

Events in 2025
